N	DESCRIPTION	
NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION, OFFICE OF HISTORIC PRESERVATION 109 WEST STATE STREET, TRENTON, NEW JERSEY 08625 (609) 292 - 2023	Construction Date: c. 1890	Source of Date: style
	Architect: poss. Wilson Bros. & Co. Phila	Builder:
	Style: Queen Anne	Form/Plan Type: L-shape with tower
	Number of Stories: 2 ¹ / ₂	
	Foundation: low, brick cemented over	
	Exterior Wall Fabric: asbestos siding (originally clapboard)	
	Fenestration: 3 bay	
	Roof/Chimneys: hip with gables, full returns	
	Additional Architectural Description:	
	An open porch is located on three sides and contains flared square posts, turned balustrade and banister with elbows. The porch is partially enclosed on the northeast corner. Panelled shutters and pedimented peaks are found on many multi-paned windows. The second floor has recessed tower windows with shaped boards at their tops. Similar boards with end brackets are found on the third floor openings which also have gabled roofs. A balcony with turned balustrade is also found on the third floor. A triangular window is located at the peak of the east end. Other unusual windows including a small triangular dormer and an eyelid dormer are also found on the roof.

NEW JERSEY D 1		TN DCEAN AVENUE

Located on a corner lot, the structure is situated near the street with little side or rear yard. The buildings to the east are modern motels/apartments. To the north is a house (#504 Atlantic) which was built at the same time.

SURROUNDING ENVIRONMENT: Urban Suburban Scattered Buildings Open Space Woodland Residential Agricultural Village Industrial Downtown Commerical Highway Commercial Other Other			
SIGNIFICANCE:			
The structure was built for Dr. Edward H. Williams, one of the partners of the Baldwin Locomotive Works, *This house was the second home built for Dr. Williams at Beach Haven, the first being Portia Cottage at 123 Coral St. Dr. Williams believed his new beach cottage was more appropriate for his use, and after one year sold Portia Cottage. The building at 506 S. Atlantic is one of the most impressive on the Island, containing a domed tower, various window types and elaborately turned elements. Its neighbor #504 Atlantic is similar, but its plan is opposite that of the Williams House. It is assumed that Dr. Williams employed the Wilson Brothers firm to design this structure as he had for his Coral Street residence.			
[*] Who was instrumental in the founding of Beach Haven. The Baldvin Locomotives were used by the Tuckerton Railroad which constructed a railroad spur to the Bay at Tuckerton in 1872.
