

1.

1927

Despite The "1927" on the photo This is the oldest one
 14 in the series dating sometime after 1864 but prior
 to the renovation which resulted in the appealing
 main wooden structure. To the right is the early
 spa facility. Note that the building faces into
 the hill and stage road.

2.

This picture dates between 1880 and 1904. It shows 29
the renovation of the main building into a considerably
larger building facing the hot lake. A number of small
whitewashed bath houses line out to the east. The presently
existing brick structure which was completed in 1906
is not in evidence.

4.

Taken between 1906, completion date of brick building and 1934, date of the great fire. By the automobiles it appears to date circa 1917. At this point the combined frontage exceeded 600 feet. Note that the new lake on the left has been added and a "transition" Georgian townhouse used to "draw together" the two major structures.
