Acreage: approximately $1\frac{1}{2}$ acre (over)

Date 6/82

7. Original owner (if known) Town of Reading
Original use Water Reservoir
Subsequent uses (if any) and dates _____

8. Historical significance.

Due to the chronic shortage of water for firefighting purposes, as well as the increased demand for water by a growing population, the town of Reading undertook in 1883 to provide a public water system. In 1885 a private corporation, the Reading Water Company, was chartered to provide this service. Study committees constituted by the town, however, recommended that the town take over this responsibility, and the issue was settled by the General Court in favor of the town in 1889. A Board of Water Commissioners composed of Lewis Bancroft, George Abbott, and Edward Nichols was elected.

The water system of 20.5 miles of pipes, 111 hydrants, a steam-powered pumping station, and the standpipe were constructed in 1890-91 at a total cost of \$185,331.75. Water was from wells above the Lobs Pound mill dam. In 1894, it was found necessary to remove the mill dam from the Ipswich River, and Reading purchased the ancient mill rights of Lob's Pound mill to assure its water supply.

Aside from its importance to the town, which had been devastated by fires with some frequency, the standpipe today has considerable significance as a visual landmark, standing on a hill, visible from many points and resembling a medieval tower in its design.

9. Bibliography and/or references such as local histories, deeds, assessor's records, early maps, etc.

INVENTORY FORM CONTINUATION SHEET

MASSACHUSETTS HISTORICAL COMMISSION
Office of the Secretary, Boston

Community: Reading	Form No: D-206
Property Name: Reading Standpipe	

Indicate each item on inventory form which is being continued below.

CRITERIA FOR EVALUATION

The Reading Standpipe is significant (1) as part of the town's first water system (1890-91) ; (2) for its commanding presence as a visual landmark on the Reading skyline; and (3) for its Medieval-tower-like design. It retains integrity of location, design, materials, workmanship, and feeling, and meets Criteria A and C of the National Register.
