BATTLEGROUP

CARRIER AIR WING All Weather Fighter

- This sophisticated high performance carrier aircraft has advanced sensor systems and effective radar.
- Known as the Carrier Air Wing (CAW), it can carry a variety of aircraft, including a mix of fighters, tankers, and support aircraft.
- As suited to the attack tradition, the fighter provides protection against incoming intruders.
- The fighters carry a mixed armament, including a variety of air-to-air, air-to-ground, and air-to-sea weapons, as well as a variety of other specialized mission equipment.

BATTLEGROUP

UNDERWAY REPLENISHMENT (UNREP)

Underway Replenishment (UNREP) is a critical capability of the U.S. Navy's Battle Group. It allows the group to sustain operations at sea for extended periods without the need to return to port. This capability is essential for maintaining a forward presence and responding to global challenges.

Underway Replenishment of U.S. Combatants by U.S. Combatants and U.S. Support Ships
