GENERAL VIEW #5 NOV 26 1980

B: Frame building beyond boundary dates from about 1930. It is the first of several buildings along the street which date from that time. They were not included within the boundaries because the historic character of the district (i.e., the mixture of 19th and early 20th century structures) ends past building #22. The aforementioned area, Main St. north of the district, is characterized chiefly by intrusions and c.1920 to c.1930 structures.
