7. Description cont'd Plymouth Historic District

The woodlands of the farm dominate the skyline to the west of Plymouth Village and both the land and the buildings are considered important to this historic site.

The Old Coolidge Farm - Built about 1800 by the grandfather of President Coolidge, this dwelling is the oldest surviving building in Plymouth Village. The house is a Colonial, center chimney style in an excellent state of preservation and is still owned by the Coolidge family.

The John Coolidge Home - A remodeled 19th century building moved to the site of the original Coolidge cabin which was built by the first Coolidge to settle in Plymouth. The dwelling is now owned and occupied by John Coolidge.

Of the above listed buildings 6 are owned by the State of Vermont and maintained as part of Plymouth Historic Site, 2 are privately owned, 1 is owned by the Calvin Coolidge Memorial Foundation and 5 are owned by Mr. John Coolidge. Nearly all are scheduled for eventual acquisition as part of this site.

STATEMENT OF SIGNIFICANCE (Include Personages, Dates, Events, Etc.)

When standing in the center of Plymouth Village, one may view in all directions the forested mountains and ridge lines which comprise the boundaries of Plymouth Historic District. The village retains, in a perfect state of preservation, the atmosphere of 19th century rural Vermont. It is historically unique in that its buildings include not only the birthplace of a president of the United States, but the homes of his ancestors who were among the earliest settlers of the area. The Homestead in which the President grew up remains authentically furnished precisely as it was on the night of August 3, 1923, when Calvin Coolidge was administered the oath of office as President of the United States by his father, Col. John Coolidge, a notary public. Visitors come in ever-increasing thousands yearly to view Plymouth and be stirred anew by the historic events which took place there. As time passes the Plymouth Historic District is held in higher and higher regard not only as a shrine to a President of the United States but as a perfectly preserved symbol of a bygone era in American history.
