CONTINUATION SHEET

Confederate Monument  
Trigg County, Kentucky

**Description** The Confederate Monument in Cadiz is located on the courthouse lawn just off Main Street. It is approximately ten feet tall. The monument is four Doric columns supported on a base that flares out from the columns and meets a flat limestone slab. Between the columns on the base is a cube of limestone. On either side of that are limestone basins. The cube was once a fountain and the basins caught the overflow. The water no longer flows from the fountain. Above the columns is a flared arch capped with five limestone balls, two above each column and one in the center.

**Statement of Significance** The Confederate Monument in Cadiz meets National Register criterion A and is significant within the context of "Civil War Monument in Kentucky, 1861-1935." The monument was erected in 1913 by the Alex Poston Chapter of the United Daughters of the Confederacy. This was a later monument erected in celebration of the Confederacy and of the Lost Cause. It is an excellent example of the property type "functional monument." It is one of four memorial fountains that were erected as Civil War monuments in Kentucky.

**Verbal Boundary Description** - The Confederate Monument whose boundaries form a circle with a radius of ten feet centered on the monument located on the courthouse lawn in Cadiz, Kentucky.

**Verbal Boundary Justification** - The area associated with the monument is restricted to the ground on which the monument sits and a small buffer around it. The setting outside such a restricted area is not seen as critically important to maintaining an integrity of association. Because the focus of the multiple property submissions is the significance of the monuments, their proposed area of listing will reflect that they have been considered by-and-large, in isolation from their surrounds.
