KENTUCKY HISTORIC RESOURCES Individual Inventory Form

Resource # 189

45. Description and House Plan: (continued)

Interior:

Main door opens into slightly larger of two rooms in main part of house; this west room has the more elaborate woodwork: molded chairrail, baseboard, and trim, with reeded panelled reveals at the connecting door and the splayed window openings; mantel gone; east room has plain trim, enriched shelf and architrave mantel with coal grate insert; enclosed winder stair rises from west room through east room; ell is reached from the smaller east room and has been largely modernized with new windows and partial panelling and carpeting, it contains the added bathroom; added stair cut through the rear wall of the main house provides access from the ell to the staircase; 5 horizontal-panel door in center front entry of main house with corresponding door on rear wall is blocked up.

Outbuildings:

There are no contributing outbuildings.

13. Statement of Significance: (continued)

in the county. Assymettrical facade (off-center door) is unusual in the region during this period, and is nearly unique in Shelby. The alteration, chiefly in the ell, do not affect the significant form and details of the house.

The boundaries incorporates one contributing building and one non-contributing structure (well).
