A black and white photograph of a historical site marker. The marker is a rectangular sign with rounded corners, mounted on a wooden post. The sign is positioned in the foreground on the right side of the frame. In the background, a large, rectangular stone structure, likely a mill foundation, is visible, partially obscured by bare trees and brush. The setting is a wooded area with many thin, leafless trees. The sign contains text about the site's history, including the name of the mill and the date it was built.

Earliest Mill

A gristmill was built on "Cherry's" brook by Sgt. Daniel Case between 1740 and 1750. The site, used industrially for almost two centuries, has been the home of a sawmill, woodworking shop and a wagon repair shop. A sawmill operated here as late as 1933, while an ice cutting business existed until 1938.

The Canton Historical Society.
