DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The State Bank of Kooskia is a one story 25' x 50' brick building distinguished by the typical inset corner entry used on early banks and stone and brick ornamentation. A stone column supports the round arched corner porch. Brick pilasters rise from a terra cotta band molding and support round arches of two differing arcs with brick keystones. Above the key stones is a corbelled brick banding which is capped by a stone band. The structure terminates with a brick parapet with stone capstones. The windows have stone sills and lintels and three square transoms.

The entry has been remodeled and an addition was recently placed on the right rear. This addition is a one-story brick which makes the building L shaped. It is compatible but not included in the nomination.

SPECIFIC DATES	1912	BUILDER/ARCHITECT	Ralph Loring
----------------	------	-------------------	--------------

STATEMENT OF SIGNIFICANCE

The State Bank of Kooskia is architecturally significant as a good example of a rural community's bank building. Its compact and concise design has charm and its brickwork exhibits good craftsmanship. It is also significant as a local landmark, being Kooskia's oldest brick building and one of the few substantial structures of its period remaining in the town.

Lewiston architect Ralph Loring designed this bank and did several others in various small towns in the surrounding area. George Trenary, Kooskia's major contractor, did the masonry work.
