killed, along with a number of his companions. His body was taken up the hill to the new being and sacrificed. His death, in the summer of 1791, ended all opposition to Kaschascha on Hawaii, and all the island fell to "The Lonely One." With this accomplishment behind him, he was free, a few years later to proceed with the conquest of all the islands and to found the Hawaiian Kingdom.

The incident was not only a crucial step in Kamehomeha's rise to supreme power, but it also superbly illustrates the fact that he, despite more than a decade of contact with foreigners, remained true to the ancient Hawaiian social, political, and religious system. His treatment of Kaoua, which has never been fully explained, was typical of the ruthlessness by which Hawaiian chiefs sometimes gained power.

The heiau, which has been restored, is in excellent condition and is open to the public, with welks and steps to provide easy access. It commands a superb view of the west coast of Rewaii. It is surked by a bronze tablet created by the Territorial Superintendent of Public Works in 1928.
