Architecturally, the State House is a severe brick structure topped by a tall octagonal dome and cupola. The main entrance facing the east, is protected by a one story pedimented Corinthian portico with marble floor, wooden columns, iron capitals, and cast iron railing; it is obviously a later addition. The portal opens into a wide arcaded hall of similar

classic order under the central dome, which has arched and oval windows and delicate plaster interior ornament in the Adam style, completed in 1793.

Over the entrance to the Old Senate Chamber is a curved balustraded spectators gallery, supported by fluted Ionic columns. Facing the entrance is the circular speaker's platform. Typical of late Georgian Colonial design are the twenty-four-paned sash windows with deep paneled reveals, window seats and inner shutters, and the classically trimed fireplace. Opposite the Senate Chamber is the Old Hall of Delegates, next to which is the present Historic and Flag Room, used for exhibit purposes.

Throughout the years, following its nationally significant role in the first years of independence, the State House has continued to serve as the center of State government. In 1902-05, expansion of the State governmental functions necessitated the addition of an annex slightly larger than the original building. Unfortunately, the annex has obscured the original plan and symmetry of the State House.

Begun in 1772, and finished about 1779, the present structure has seen many alterations and additions. Between 1785 and 1789 the original dome was demolished and replaced with the present larger one. In 1858, due to expanding needs, the quasi-octagonal bay was removed from the western side and replaced with a larger octagonal annex, increasing the size of the Delegates Chambers by some seventy percent. Other alterations included: the addition of a cellar designed by George A. Federick, in 1876; "an annex with special reference to the needs of the State Library," 1886; architect and historian J. Appleton's restoratuon of the old Senate Chambers, 1894; demolition of the annexes of 1858 and 1886 and replacement with the present annex, 1902; interior redecoration by the Maryland Historical Society, 1937; and finally, "Extensive rennovation of the interior under the direction of the Department of Public Works." 1

Boundary Information and Justification

The Maryland State House sits within State Circle in Annapolis. The Circle provides a very natural boundary for this property.

Historian's Work Sheet for "Photo data Books". Historic American Building Survey Files, Ms., Section IV.
