highway

Photo #6

A black and white photograph of a damaged concrete overpass. The structure is supported by several concrete pillars. A sign on the side of the overpass reads "12FT-6IN". The concrete shows signs of significant damage, including crumbling and exposed rebar. A metal guardrail runs along the top edge of the overpass. The scene is dimly lit, suggesting an overcast day or a shaded area. The ground below the overpass is dark and appears to be a road or parking area with some debris.
