Significance (Indicate sources of information for all statements)

20. Architectural significance

🔀 al. Key structure/individually may qualify for the National Register

b. Contributing structure

c. Not eligible/intrusion

Excellent example of two-story stone residence with extant open porches (full length, both floors) and exterior stairways. More recent frame addition to northeast blends in fairly well with original structure. Building fronts to west on Third or railroad right-of-way.

Great River Road Survey states that house is a vernacular, "Louisiana Plantation Style" with intact double porch, altered ends (Group II).

	A ppo 1959 longe stone hour	a that see disc to see one	

/(

A pre-1858 large stone house that, according to one area source, served as a hotel. No documentation for early use or for use as hotel, but location was (after 1871) close to the depot and railroad right-of-way. Present owner recently purchased house from Lloyd Matt.
