## National Register of Historic Places Continuation Sheet

Section number <u>8</u> Page <u>2</u>

Significance (continued):

manufacturing complex at Harrisville village (the Milan Harris Company and the Cheshire Mills) with logging service, with clothesboards on which to wind their woolen cloth, and with a large part of the sawn lumber needed to accomplish Harrisville village's major housing expansion (much of it mill-owned) of the third quarter of the nineteenth century. The archaeological remains of the Parmenter/Tolman mill complex (NH-42) sit just beyond the boundaries of this property. As a part of the entire Mosquitoville complex, this property is significant under Criteria A.

This house is of architectural interest as a good example of a popular Greek Revival dwelling of the 1860s which, like many of its contemporaries, was probably built from lumber sawn at the Parmenter/Tolman mill. This house bears a striking resemblance to several in the village, most notably the M. Harris Company's Grove Street houses of 1854-1863 (HVD-58-61). Together, these dwellings satisfy Criterion C.
