A black and white photograph of the Grand Street Theater building in winter. The building is constructed of stone and features a prominent gable roof with a decorative finial at the peak. A large, arched window with a fan-patterned upper section is centered in the upper story. Below it, a dark sign reads "GRAND STREET THEATER". The ground floor has three arched doorways, each with a dark door and a window above it. The central doorway is flanked by two columns. A set of stone steps leads up to the central entrance. The building is surrounded by snow-covered evergreen trees. The year "1930" is visible on the stone wall to the right of the central entrance.
