National Register of Historic Places
Registration Form

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in How to Complete the National Register of Historic Places Registration Form (National Register Bulletin 16A). Complete each item by marking "X" in the appropriate box or by entering the information requested. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (Form 10-900-a). Use a typewriter, word processor, or computer, to complete all items.

1. Name of Property

Historic name: Lisbon Bridge

Other names/site number: Sheyenne River Bridge; 32RM78

2. Location

Street & number: North Dakota State Highway 32

City or town: Lisbon

State: North Dakota  Code: ND  County: Ransom  Code: 073  Zip code: 58054

3. State/Federal Agency Certification

As the designated authority under the National Historic Preservation Act of 1966, as amended, I hereby certify that this _X_ nomination ___ request for determination of eligibility ___ meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property _X_ meets ___ does not meet the National Register criteria. I recommend ___X___ nationally ___ statewide ___ locally. ( ___ See continuation sheet for additional comments.)

January 8, 1997
Signature and title of certifying official
James E. Speiry
State Historic Preservation Officer (North Dakota)

In my opinion, the property ___ meets ___ does not meet the National Register criteria. ( ___ See continuation sheet for additional comments.)

Signature of the Keeper  Date of Action

4. National Park Service Certification

I hereby certify that the property is:

_ _ entered in the National Register  __ See continuation sheet.
_ _ determined eligible for the National Register  __ See continuation sheet.
_ _ determined not eligible for the National Register.
_ _ removed from the National Register.
_ _ other, (explain:)

8. Statement of Significance

Applicable National Register Criteria
(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing.)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B Property is associated with the lives of persons significant in our past.
- C Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations
(Mark "x" in all the boxes that apply.)

Property is:
- A owned by a religious institution or used for religious purposes.
- B removed from its original location.
- C a birthplace or grave.
- D a cemetery.
- E a reconstructed building, object, or structure.
- F a commemorativ property.
- G less than 50 years of age or achieved significance within the past 50 years.

Areas of Significance

Verbal Boundary Description
(Describe the boundaries of the property on a continuation sheet.)

Boundary Justification
(Explain why the boundaries were selected on a continuation sheet.)

11. Form Prepared by

Name/Title: Mark Hufstetler / Historian
Organization: Renewable Technologies, Incorporated
Date: December 10, 1996
Street & Number: 511 Metals Bank Building
City or Town: Butte
State: Montana
Zip code: 59701

Additional Documentation
Submit the following items with the completed form:

Continuation Sheets
Maps

A USGS map (7.5 or 15 minute series) indicating the property’s location.

A Sketch map for historic districts and properties having large acreage or numerous resources.

Photographs
Representative black and white photographs of the property.

Additional items
(Check with the SHPO or FPO for any additional items.)

Property Owner
(Complete this item at the request of SHPO or FPO.)

Name: North Dakota Department of Transportation
Street & Number: 608 East Boulevard
City or Town: Bismarck
State: North Dakota
Zip code: 58505
Telephone: (701) 328-2731

Paperwork Reduction Act Statement: This information is being collected for applications to the National Register of Historic Places to nominate properties for listing or determine eligibility for listing, to list properties, and to amend existing listings. Response to this request is required to obtain a benefit in accordance with the National Historic Preservation Act, as amended (16 U.S.C. 470 et seq.).

Estimated Burden Statement: Public reporting burden for this form is estimated to average 18.1 hours per response including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate or any aspect of this form to the Chief, Administrative Services Division, National Park Service, P.O. Box 37127, Washington, DC 20013-7127, and the Office of Management and Budget, Paperwork Reductions Project (1024-0018), Washington, DC 20503.
Narrative Description:

The Lisbon Bridge is located on the north end of Main Street, in the community of Lisbon, North Dakota. The structure, constructed on a north-south axis, carries paved, two-lane State Highway 32 over the Sheyenne River. A residential neighborhood of Lisbon is located immediately south of the bridge, while a city park and undeveloped land are located just to the north. The Sheyenne River is a major watercourse in the area. Here, the River meanders through a wide, deep valley of farmland, dotted with trees and wetlands.

The bridge itself is a three-span steel cantilever-beam structure. This design, little-used in North Dakota, was one of several bridge forms introduced prior to World War II which allowed for longer-span crossings without the use of trusses. Long-span beam bridges, first constructed with steel and later with concrete, had the advantages of simple design and economy of materials, and resulted in bridges with fewer clearance restrictions than most trusses. In pre-World War II North Dakota, long-span beam bridges were primarily used for railway overpasses and underpasses; here, the design may have been selected because of a desire to erect a visually-appealing bridge for this urban setting.

Design details of the bridge's substructure and superstructure are outlined below:

*Structure type:* 3-span cantilever beam  
*Dimensions:* 165 feet long; deck 40.7 feet wide  
*Substructure:* concrete abutments, back and wing walls; solid concrete piers  
*Superstructure:*  
  *floor system:* 4 stringers with bridging  
  *decking:* concrete; concrete sidewalk along west side  
  *railing:* solid concrete parapet with incised and punched-through lines

The bridge retains a high level of integrity; it remains in its original location, and all major structural components appear to retain their historic appearance. The parapets and other visual details have been restored by the North Dakota Department of Transportation in recent years.

The Lisbon Bridge is owned and maintained by the North Dakota Department of Transportation. The bridge carries the state numerical designation 32-036.894.
LISBON BRIDGE
RANSOM COUNTY, NORTH DAKOTA

Narrative Statement of Significance:

In accordance with the guidelines established in the Multiple Property Documentation form for "Historic Roadway Bridges in North Dakota," the Lisbon Bridge is eligible for listing in the National Register of Historic Places with local significance under Criteria "A" and "C." The bridge is significant under Criterion A for its association with efforts to modernize and improve North Dakota's roadway system during the New Deal era. The overpass is eligible under Criterion C because it exhibits an unusual engineering design. The use of cantilevered spans during the historic period, such as exhibited at this structure, is rare in North Dakota. Finally, the bridge is eligible under Criterion C for its unusual aesthetic merit. This is primarily evident in the patterned concrete balustrade and the Moderne-style lampposts. The presence of such locally-unusual design details the reflective of the W.P.A. emphasis on aesthetic design, and was especially important because the bridge's urban location made it a highly visible structure.

Historical information: According to North Dakota Department of Transportation (NDDOT) files, this bridge was constructed in 1936. This date is supported by plans for the bridge on file at NDDOT, which indicate that the bridge was a Works Progress Administration (W.P.A.) project. Prior to the Great Depression of the 1930s, city bridge construction was not given financial assistance by the federal government. The Federal Relief and Construction Act of July 1932, however, allowed federal funds to be used in the construction of urban highway bridges. This act was especially important to the work-relief programs of the New Deal era.
LISBON BRIDGE
RANSOM COUNTY, NORTH DAKOTA

Bibliography:

LISBON BRIDGE
RANSOM COUNTY, NORTH DAKOTA

Verbal Boundary Description:

The bridge is located in the Southeast quarter of Section 2, Township 134 North, Range 56 West. The boundary consists of a rectangle, measuring 215 feet north-south and 91 feet east-west, and centered on the bridge superstructure.

Boundary Justification:

The boundary is constructed to include the area occupied by the bridge superstructure and substructure, as well as a 25-foot buffer of land immediately surrounding the structure.
