1/10/86

Original storefront facade of Earl Building has been modified to reflect unified composition of storefront facades. To left of the Earl Building, west along 7th Street, the space between the Earl and Eshman Buildings is the location of St. Vincent Place prior to construction of bridge building in 1921.

Seventh and Hill Streets: At the center are
the two Hart Buildings appearing as a single
structure on the corner. To the left is the
Pease Building, then the Gennet Bldg. To the
right is the Eshman Building, Bridge, and the
Earl building. Note the unified storefront and
second story facades.
